## Recommendation Letter

To whom it may concern:

I am writing this letter to highly recommend Spaceframe Construction & Engineering as a professional and qualified General Contractor. The company did a great job during our laboratory renovation project, started in November 2015 and accomplished in July 2016, in Tianjin. To be more precise, the project dealt with the renovation of our test technology R&D Center and covered a total floor area of 2,182m<sup>2</sup> with 3 existing concrete buildings.

Spaceframe's work scope included to fit out existing office buildings and guardhouses, to re-roof the buildings with insulation, to change all windows and doors, to re-install a new gate and internal road, but also assist to upgrade the boiler system.

I would like to emphasize that Spaceframe has demonstrated during all phases of the project their commitment to perform successfully by showing a strong attention to detail with regard to quality control, schedule, cost management, and the overall project administration.

After taking over the facility, Spaceframe continued to provide outstanding post-service and their professional advice on our daily operation.

It was a pleasure to cooperate with Spaceframe, and I feel confident that the company will do an excellent job to meet your expectations as they have done for us.

Yours faithfully,

Dec.6<sup>th</sup>, 2016

Jim Cao   
Manager
