

Letter of Recommendation

June 11, 2018

To WHOM IT MAY CONCERN

Dear Sir or Madam,

This letter serves as my formal recommendation for Spaceframe Construction & Engineering Co., Ltd as a qualified and reputable Pre-Engineered Metal Building provider in China.

Spaceframe team have design & built over 600,000m² roof area modern farm buildings for us since 2013 in different regions include Hebei, Shanxi, Shandong and all these projects are great success. Their innovation designs have greatly reduced our cost compared with previous projects. Their excellent quality control from fabrication shop to installation site brings us confidence to our building quality standard. Most of our projects are under quite a bit time pressure however Spaceframe team always tried very hard to push forward the progress despite all the negative factors and kept ahead of their required schedule. Furthermore, Spaceframe have well demonstrated its EHS management. As a high risk trade, Zero accident in past 4 years with us are truly remarkable achievement.

Thanks to all Spaceframe team for their dedication and contribution to our projects. Their professional performance have proved themselves a reliable partner to Fonterra. We would be very glad to cooperate with Spaceframe again in future and highly recommend them as qualified PEMB candidates to any companies in China who may in need of their service.

Sincerely yours,

A handwritten signature in black ink, appearing to read "H.R. Bergmoes", with a long horizontal flourish extending to the right.

Name: H.R. BERGMOES

Title: VP CHINA FARMS & MANUFACTURING.
